

Aptela Conferencing

Aptela offers an audio conference service that allows you to hold conference calls for up to 50 participants. Conference bridges are mapped to designated extensions for immediate conferencing. The easily configured conference bridge has a dedicated extension and PIN, which can be changed at any time for heightened security. Aptela offers one bridge per user or department extension as part of the standard calling plans. Aptela's conference bridges are offered in four convenient bundles to meet your needs:

Metered Usage Plan	\$0.069/min
250 Minute Plan	\$14.99/month
500 Minute Plan	\$24.99/month
1,000 Minute Plan	\$39.99/month

Aptela Benefits

- Conduct sales training, customer training or meetings without the need for an expensive 3rd party conference system
- Set up conferences on the fly, anytime

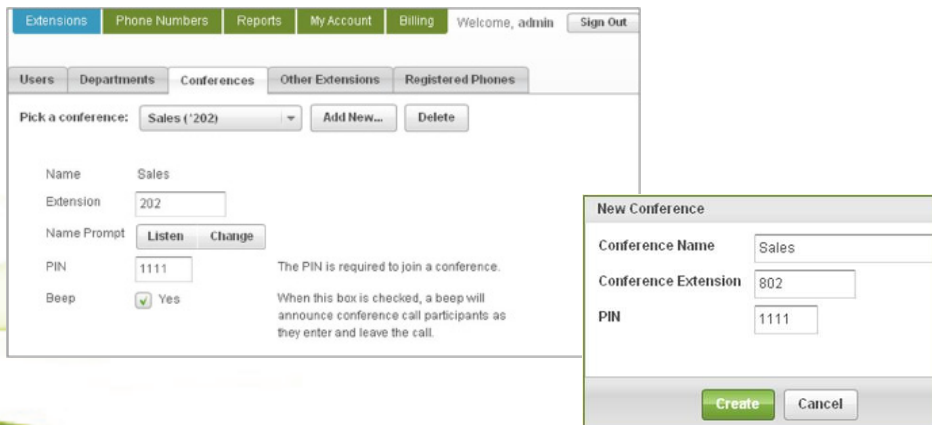

Our Metered Usage Plan allows you to pay by the minute. This plan is perfect for limited usage and initial account setup until you determine which plan best meets your needs. The minute bundle plans offer flexibility based upon your business' expected usage. You can change your plan at any time and there are no long-term commitments.

Aptela offers a flexible and affordable audio conferencing solution:

- Set up conferences on the fly, anytime
- Facilitate conference calls small or large - up to 50 callers at one time
- Each bridge is PIN protected, providing secure access to your conference calls
- Allows extension dialing or direct dialing into your conference bridge
- Creating a conference bridge is free of charge – you only pay for usage
- Internal conferences are free – “on-net conference participation” is completely free of charge
- A tone alerts you when participants join or leave an existing conference

The screenshot shows the Aptela web interface. At the top, there are navigation tabs: Extensions, Phone Numbers, Reports, My Account, Billing, and a user greeting 'Welcome, admin' with a 'Sign Out' link. Below this, there are sub-tabs: Users, Departments, Conferences (selected), Other Extensions, and Registered Phones. The main content area shows a 'Pick a conference:' dropdown menu with 'Sales ('202)' selected, and 'Add New...' and 'Delete' buttons. Below this, the details for the selected conference are shown: Name: Sales, Extension: 202, Name Prompt: Listen Change, PIN: 1111, and Beep: Yes. A note states: 'The PIN is required to join a conference. When this box is checked, a beep will announce conference call participants as they enter and leave the call.' A 'New Conference' dialog box is open, showing fields for Conference Name (Sales), Conference Extension (802), and PIN (1111), with 'Create' and 'Cancel' buttons at the bottom.
